Please reverse your cease a desist order. I along with many South Carolinians wish to choose which service we would like to spend our money on. I have used Uber in Nashville, TN, Atlanta, GA, New York City and in Greenville. I can tell you that their service is far superior than any other. In Greenville it can take 45 minutes or more for a yellow cab. Uber usually takes less than 5 minutes. This is certainly an important point for the drunk driver deciding to break the law or get home safe. This, of course, is only one example of the vital service that Uber can provide.

I see no reason why they should not be allowed to offer rides to the general public. You may want to better inform all of us consumers as to why this unilateral and likely politically motivated decision was made.

Thank You!

Subject: Don't Take Away Our Uber!

Dear Public Service Commission,

Transportation is a particularly important public need, and Uber is doing a great job helping meet that need. The government's giving taxis a monopoly doesn't work well. Taxis suck in large part because they don't have any competition.

There's got to be middle ground here that doesn't amount to shutting Uber down completely.

Lindsey Spires Griffin

Subject: Free Uber

I'm writing you today in support of Uber. I can tell you that having taken many forms of public transportation as well as Uber there is no comparison in the quality of the service Uber provides.

I can also tell you, as a commercial insurance agent that insureds many of your compliant taxi cab drivers with substantially lower limits and worse MVR's than the Uber drivers I've met, the consumer is much better protected by Uber's insurance policy.

What is the justification for stopping Uber? To me it sounds like protectionist bullshit. Just like not letting Tesla sell their cars in the state.

America is the greatest country in the world because of our freedoms. One of those freedoms is capitalism and free enterprise. If someone can build it better or cheaper or more quickly, they deserve to profit off of the risk that they took - not to be ordered by the government to stop because they are taking market share away from established or politically connected businesses.

If there is some legitimate reason to put Uber out of business, please let me know. If this is just about protecting established taxi services, I am disgusted.

Uber is far superior to the taxi service. I would rather walk.
